

ACCA (the Association of Chartered Certified Accountants) is the fastest growing, most supportive gateway to your career in accountancy, finance, business and management. The ACCA Qualification will arm you with the skills and experience to build a successful career anywhere in the world. With our strong presence in 181 countries around the world, your skills will be in demand internationally.

ACCA offers you more flexibility than other accountancy qualifications thanks to our unique option papers. This gives you a really broad, yet thorough set of skills as well as an opportunity to specialise in whichever area you wish, from audit to management accounting. You don't have to choose your specialism until later in your studies, giving you time to decide where your interests lie.

We know how important it is to be able to fit your studies around work and lifestyle and we offer you a range of study options to suit your budget and situation. We are proud of our unparalleled level of study support via wealth of online resources and dedicated 24/7 care line.

Starting your qualification whilst you're still at university will make you stand out from other candidates when looking for an internship or job. It will prove to employers that you are a self-starter with initiative and dedication to your future career.

Depending on your degree, you will most likely be eligible for exemptions from some of our exams.

To find out more about ACCA, and how you can start a successful career straight out of university, visit www.accaglobal.com/graduate
