

Psychology: You Said, We Did.

You said you would like Psychology options at the Prelim stage

We have introduced 'Skills for Psychologists' and 'Positive Psychology' modules at Prelim

You said the coursework component of modules should account for a greater proportion relative to exams

We now weight exams and coursework 50:50

You said lecture slides and assignments should be available in Week 1 of term

We have ensured all staff make these available on Moodle from the beginning of term
