

APPROVAL AND MONITORING

2B.2 VALIDATION OF COLLABORATIVE PROVISION WHERE UNIVERSITY OF BUCKINGHAM PROGRAMMES/MODULES ARE USED

- I. Where the partner institution wishes to use University of Buckingham programmes as presented at Buckingham, no further validation is required. For franchise agreements, normally three year variants of Buckingham programmes would be offered.
- II. Where a partner institution wishes to use some University of Buckingham modules in a new programme of their own design, a partial validation is required. The programme must be externally reviewed as for a validation with the programme and new modules being considered. The procedure for approval follows that of validation.
